

Taxonomy icon

(http://lifesciencedb.jp/lldb.cgi?gg=resource_icon&lng=en)

○ **Brief Description**

Taxonomy icon is a collection of icons (illustrations) of biological species that is free to use and distribute. There are more than 200 icons of various species including Bacteria, Fungi, Protista, Plantae and Animalia.

○ **Features**

- Easy access to icons
There are two different ways to access the icons.
 - Search a specific icon by keywords.
 - Choose icons using the biological classification tree.
- Select the size and background color of your choice
 - Sizes: Large (120×190 pixel) / Small (32×24 pixel)
 - Background: Colored / Transparent
- Share and remix icons just by giving attribution
Users can copy, distribute, transmit and adapt icons in their works, such as documents for presentation purposes and original websites.
(* Taxonomy icon is provided under the Creative Commons license Attribution 2.1, Japan.)
- A link to the NCBI Entrez database
Most icons are linked to the NCBI database via the NCBI taxonomy browser.

○ **Uses**

- To create documents and websites
- To look up the classification or scientific name of a species
- To obtain the genome sequences of a particular species

○ **Planned Features**

- Increase the number of icons
